Land and Lakes Company
123 North Northwest Highway
Park Ridge, Illinois 60068

Gentlemen:

This letter is to further clarify your water monitoring requirement as outlined in your developmental permit numbered 1978-2-DE and dated January 10, 1978.

In order to computerize the data, each of the monitoring points at your site has been assigned a permanent number by the Agency. The following is a list of the monitor points located at your site, and the Agency-assigned number for each point.

<u>Plan Designation</u>	<u>Agency-Assigned Number</u>
B-3 (N.E. south of corner)	G103
P-12 (S.E. corner, shallow)	G12S
P-14 (S.W. corner, shallow)	G14S
P-16 (N.W. corner, shallow)	G16S
P-18 (N.E. corner, shallow)	G18S
P-11 (S.E. corner, deep)	G11D
P-13 (S.W. corner, deep)	G13D
P-15 (N.W. corner, deep)	G15D
P-17 (N.E. corner, deep)	G17D

Please submit a background analysis for each of the wells listed above.

Enclosed are the proper water monitoring analysis forms to be used in reporting the background analysis for each of your monitoring points. Two copies of instructions for completing these forms are also enclosed. Retain one copy for yourself and pass along the second copy to the lab doing your analytical work.

EPA Region 5 Records Ctr.

354235

Please note that the site inventory number, monitor point number, county, region, location, and responsible party have been completed on the enclosed forms. When collecting samples to be analyzed, you will have to complete the date collected and the rest of the left side of the form. It will also be your responsibility to see that the forms and water samples are delivered to a private lab of your choice to be analyzed for the proper parameters, which are indicated on the form. Be careful to match up the correct sample number (17-20) with the correct water sample. After receipt of your background analysis, a routine quarterly monitoring program will be established.

If you have any questions, please feel free to contact me.

Very truly yours,

Rauf Piskin
